

Entering Charges in Kareo

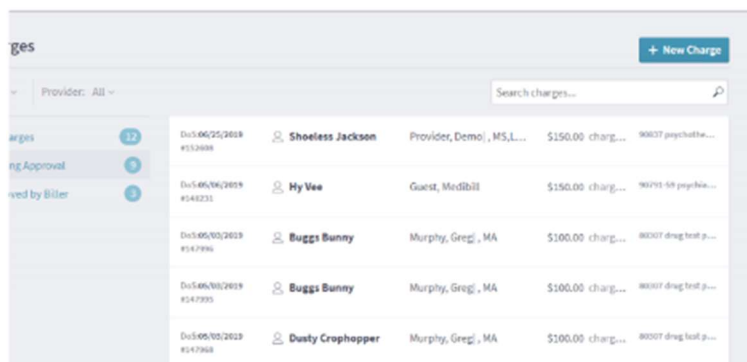

This replaces the need to handwrite charges and kFax them!

From within the “Kareo Clinical” side (not the Practice Management side):

- Hover over the green laptop icon and select “Charges”:

- Click the [+ New Charge] button:

- Find the patient by typing in their name, then go to the “procedure” field.
- Start typing in their procedure code.

- Once you see the procedure you want, select it. Be sure to click the “heart” icon to make it a favorite. The same procedure applies to the ICD10 Dx code fields.
- When ready, simply click Send to Biller on the bottom of the page.
